Featured Ed2Go Class:

Real Estate Investing

Have you ever heard the old saying, "Buy low, sell high?" News stories about the softening real estate market might scare away some novice investors, but experienced investors recognize weak markets as opportunities to pick up bargains. In many areas, now is the time to buy before prices start climbing again. In this course, you will learn how to make money in any area, in good times and bad, even if you have little money to start with.

Real Estate Investing includes specially designed worksheets and hands-on activities to take the guesswork out of your investing efforts. . You will learn how to invest in foreclosures, manage a rehab project, and build your team of real estate professionals (title officers, lawyers, accountants, mortgage brokers, appraisers, and more). This course also explores the effects of higher interest rates and cover alternative strategies for a changing market. By the end of the course, you will be working toward your first (or next) deal.
